The program and the structure of the tournaments can be modified at any time by the tournament director.

Tournament entry will be in Full Stack (cave complete) throughout late registration.

The tournament director's decisions are final. Players have until the start of the next hand to call over the tournament director or one of his representatives.

Placement: your seat will be randomly chosen; the ticket is marked with your name and must be presented to the croupier in order to be able to obtain your chips. There will be a new randomised seat draw for all players at the start of every day, when the last three tables are reached, then the last two tables and on the final table.

The tournament is played in Big Blind Ante format, which means that the player in the Big Blind must post the antes for the whole table. Should there be 5 players at the table, the Big Blind Ante will be the equivalent to the Big Blind. Should there be 4 or less players on the table, the Big Blind Ante will be equal to the Small Blind. The player in the Big Blind will always post their Big Blind before posting the Big Blind Ante.

Players must not take chips out from the play area. It is strictly forbidden to give chips to another player. Any player caught attempting to take chips out of a tournament will be exposed to sanctions such as definitive exclusion from Winamax tournaments.

Players must be aware that they could be filmed and photographed throughout the tournaments without being able to oppose this later. These image rights are given free of charge by the player for promotion of the event or Winamax and in general for all operations directly or indirectly linked to the tournament.
